WHEREAS it is expedient to make better provision for the construction, maintenance, and management of embankments and water-courses in the territories subject to the Lieutenant-Governor of Bengal: It is enacted as follows:—

PART I.

Preliminary.

1. This Act may be called "The Bengal Embankment Act, 1882."

It extends to the whole of the territories subject to the Lieutenant-Governor of Bengal, except

the Sunderbuns, as defined under the provisions of clause 2, section 13, Regulation III of 1828, and the province of Orissa, save as otherwise expressly provided in Part IX.

And it shall come into force from the day on which it may be published in the *Calcutta Gazette* with the assent of the Governor-General.

2. From such day Bengal Act VI of 1873 (to amend the law relating to embankments and water-courses), with the exception of the sections set out and schedules specified in schedule I to this Act annexed, shall be repealed.

The references in the said sections, which are mentioned in schedule II to this Act annexed, shall be read as if the references were made to the portions of this Act mentioned against such references respectively in the third column of such schedule.

Sections 80 and 81 of this Act shall be applicable respectively to the proclamation and notice mentioned in sections 26 and 28, Bengal Act VI of 1873.

3. The following words shall, for the purposes of this Act, have the meanings hereby declared, save where, from the context, a contrary intention appears:—

If it should appear to the Collector that the work applied for is one which may probably be executed with advantage, the procedure mentioned in the seventh and following sections of this Act shall be followed in respect of the proposed work.

19. Whenever the Collector, after considering any report of the Engineer or otherwise, shall be of opinion that the removal of any trees, houses, huts, or other buildings, situated between a public embankment and the river, is necessary, or that land is required for widening an existing embanked tow-path, or for constructing a new embanked tow-path, he shall make a report to that effect to the Commissioner, accompanied by a detailed statement of the trees, houses, huts, or other buildings to be removed, or of the land required. Such report shall be submitted in the usual manner through the Board of Revenue to the Lieutenant-Governor, in order that proceedings may be taken for obtaining possession of such trees, houses, huts, and buildings, or land in accordance with the provisions of the Land Acquisition Act, X of 1870, or other law for the time being in force for the acquisition of land for public purposes.

20. If any works proposed to be undertaken in accordance with this Act, or the lands which are likely to be affected by such works, are situated within the limits of different districts, the Collector of any district within which any portion of such works or lands is situated may apply to the Commissioner of the Division for authority to proceed in such matter; and the Commissioner of the Division, with the concurrence of any other Commissioner within whose Division any such lands are situated, may give authority to such Collector, or to any other Collector within whose district any portion of such lands is situated, to carry out all or any proceedings under

this Act in respect of all the lands affected by such works.

21. The Lieutenant-Governor may, if he think fit, appoint an Embankment Committee for any district, and may from time to time appoint and accept the resignation of the members of such Committee, and direct that any person shall cease to be a member thereof.

22. The Lieutenant Governor may from time to time direct that any such Committee shall be consulted by the Collector in the discharge of any function or the performance of any duty imposed on him by this Act; and by a notification published in the *Calcutta Gazette* may from time to time direct that any such function or duty shall be performed or discharged by such Committee.

23. The business of every such Committee shall be conducted under such rules as the Lieutenant-Governor may from time to time make in that behalf.

24. Whenever, in any matter on which the Lieutenant-Governor has directed that the Collector shall consult the Committee, the Collector may differ from the Committee, he shall, if so required by the Committee, submit the question to the Commissioner of the Division for decision, with copies of any remarks which may have been recorded by the Committee or any members thereof.

PART III.

Procedure in cases of imminent danger to life or property.

25. Whenever the Collector shall be of opinion that the delay in the execution of any work, occasioned by proceedings commenced by a general notice under the seventh and following sections of this Act, would be attended with grave and imminent danger to life or property, he may forthwith cause the execution of such work to be begun in anticipation of the completion of such proceedings: Provided that he shall without delay cause to be prepared the estimates, specifications, and plans of the proposed works, together with a copy of the map as provided in section 7, and shall cause general notice to be given that the work mentioned therein has already been commenced, and thereupon such proceedings and enquiries shall be had as in and by Part II of this Act are directed.

26. Whenever it may have been determined in the final order to be passed on any such enquiry that anything done by the Collector or by the Engineer under the last preceding section was unnecessary, any person who shall have sustained damage by the execution of such works shall receive compensation from the Government to be assessed according to the provisions contained in Part V of this Act, and on receipt of any application to that effect by the Collector from any such person affected, the land or the embank-

ments or drainage shall, so far as any alteration thereof shall appear to have been unnecessary, be, at the expense of the Government, restored as nearly as possible to the state in which they were when the Collector commenced to act under the provisions of this Part.

27. If any portion of the land likely to be affected by any work to be undertaken under this Part lies within another district, the Collector who causes the work to be executed, shall, when commencing upon it, give notice of the same to the Collector of such other district; and the provisions of section 20 shall be applicable to all proceedings connected with the work and the cost thereof.

Authority to take proceedings where lands in different districts.

PART IV.

Powers of the Engineer.

28. The powers conferred on the Engineer under this Act shall be exercised subject to the general control and orders of the Collector.

Engineer subject to control of Collector.

29. In cases in which the Engineer may be of opinion that delay for the purpose of obtaining the orders of the Collector would be attended with grave and imminent danger to life or property, the Engineer may exercise the powers conferred on the Collector by section 25. The Engineer shall forthwith report to the Collector any action taken by him under this section, and shall be guided by any instructions which he may receive from the Collector in respect thereof.

Power to Engineer to act in urgent cases.

30. The Engineer may make any repairs in, and may do all acts necessary and proper for the maintenance of, any public embankment, public water-course, or any other work executed or taken charge of under the provisions of this Act or of any previous similar Act.

Power to make repairs.

31. Whenever any person desires that a temporary roadway should be made over, or that a temporary water-course should be made through, any public embankment, or that a temporary dam should be constructed in any embanked river or public water-course, he shall apply to the Engineer, or to any person who has been appointed in that behalf by the Engineer. Such Engineer or person shall communicate the application with his opinion to the Collector, and shall await the Collector's order in respect thereof, unless he thinks that there is special reason for the immediate execution of the work, in which case he may execute the same without waiting for the orders of the Collector. If the proposed work is to be executed by an officer of Government, the applicant, before the commencement of the work, shall deposit the amount estimated by the Engineer to be necessary to defray the expenses of, and incidental to, making and removing such roadway, or of, and incidental to, making, closing, or removing such water-course or dam. If the amount deposited is found afterwards to exceed the amount required, such excess shall be returned to the said applicant.

Power to make temporary roadway, water-course, or dam.

32. Sluices constructed in any public embankment shall be opened or shut only by or with the general or special permission of the Engineer or of the officer in the immediate charge of the embankment, under such orders, either general or special, as he may receive from the Engineer.

Sluices to be opened or shut under authority of the Engineer.

33. It shall be lawful for the Engineer, or any person whom he may authorize in that behalf, in order to carry out any of the purposes of this Act,

Power to enter and survey land, &c.

to enter upon, and survey, and take levels of any land;

to dig or bore into the subsoil;

to do all other acts necessary to ascertain whether the land is adapted to the purpose projected by such Engineer, or by the Collector;

to set out the boundaries of the land proposed to be taken, and the intended line of the work proposed to be made thereon;

Power to mark out line.

to mark such levels, boundaries, and line, by placing marks and cutting trenches;

and, where otherwise the survey cannot be completed or the levels taken, to cut down and clear away any part of any standing crop, fence, or jungle;

Power to clear land.

Provided that no person shall enter into any building or upon any enclosed court or garden attached to a dwelling-house (unless with the consent of the occupier thereof) without previously giving such occupier at least seven days' notice in writing of his intention to do so.

Previous notice of entry.

The Engineer or other person so authorized shall at the time of such entry tender payment for all necessary damage to be done as aforesaid, and, in case of dispute as to the sufficiency of the amount so tendered, he shall at once refer the dispute to the decision of the Collector, and such decision shall be final.

Payment for damage.

34. Whenever it is deemed requisite to repair any embankment or water-course, or embanked tow-path maintained by Government, it shall be lawful for the Engineer, or any person authorized in that behalf, to enter in and upon the lands mentioned in section 5, and take possession of, appropriate, and remove any earth or other material therefrom, and use the same for the purposes of such repairs.

Power to take earth from lands.

35. The Collector shall proceed in respect of any crops standing on such land as provided in section 13, Bengal Act VI of 1873; and the provisions of that section shall be applicable to claims for the payment of compensation for damage done to such crops.

Procedure where crops on such lands.

36. When any such land is rendered permanently unfit for cultivation by any such act as aforesaid, the local Government shall, upon application for that purpose made by the owner thereof, acquire such lands under the provisions of the Land Acquisition Act, 1870, or other law for the

Acquisition of land made permanently unfit for cultivation.

time being in force for the acquisition of land for public purposes.

PART V.

Acquisition of lands and compensation.

37. Whenever, in the course of proceedings under this Act, save in those cases in which the Collector has proceeded under the provisions of sections 12 and 13, Bengal Act VI of 1873, it appears that land is required for any of the purposes thereof, proceedings shall be forthwith taken for the acquisition of such land in accordance with the provisions of the Land Acquisition Act, X of 1870, or other law for the time being in force for the acquisition of lands for public purposes.

38. Subject to the provisions of section 5, whenever any land other than land required or taken by the Engineer, or any right of fishery, right of drainage, right of the use of water, or other right or property, shall have been injuriously affected by any act done or any work executed under the due exercise of the powers or provisions of this Act, the person in whom such property or right is vested may prefer a claim by petition to the Collector for compensation:

Provided that the refusal to execute any work for which application is made, and the refusal of permission to execute any work for the execution of which the permission of the Collector or any other authority is required under this Act, shall not be deemed acts on account of which a claim for compensation can be preferred under this section.

39. No claim under the last preceding section shall be entertained which shall be made later than two years next after the completion of the work by which such right is injuriously affected.

40. When any such claim is made, proceedings shall be taken in view to determine the amount of compensation, if any, which should be made and the person to whom the same should be payable, as far as possible in accordance with the provisions of the Land Acquisition Act, X of 1870, or other law for the time being in force for the acquisition of land for public purposes.

41. In any such case which is referred to the Judge and Assessors for the purpose of determining whether any, and, if so, what amount of compensation should be awarded, the Judge and Assessors shall take into consideration—

First, the market value of the property or right injuriously affected at the time when the act was done or the work executed;

Secondly, the damage sustained by the claimant by reason of such act or work injuriously affecting the property or right;

Thirdly, the consequent diminution of the market value of the property or right injuriously affected when the act was done or the work executed;

Fourthly, whether any person has derived, or will derive, benefit from the act or work in respect of which the compensation is claimed, or from any work connected therewith, in which case they shall set off the estimated value of such benefit, if any, against the compensation which would otherwise be decreed to such person.

But the Judge or Assessors shall not take into consideration—

First, the degree of urgency which has led to the act or work being done or executed;

Secondly, any damage sustained by the claimant, which, if caused by a private person, would not in any suit instituted against such person justify a decree for damages.

PART VI.

COST OF WORKS, PROCEEDINGS, &c.

1. *Ascertainment thereof.*

42. The provisions of section 47 and the following sections in this Part contained shall not apply to any of the embankments mentioned in Schedule (D) to Bengal Act VI of 1873 annexed, or which may be hereafter included therein, save so far as any works or repairs are executed therein or in relation thereto under the provisions of section 18 or of section 31; or to any of such embankments as may hereafter be erected for the protection of lands which at the commencement of this Act are protected by the embankments mentioned in the aforesaid schedule, save so far as the erection of such embankments may protect lands not protected by the embankments mentioned in the aforesaid schedule. All sums payable in respect of any works or repairs executed in or in relation to the embankments mentioned in the aforesaid schedule, except under the provisions of section 18 or of section 31, shall be paid by the Government.

43. If at any time after the commencement of this Act, on enquiry made by the Collector as far as possible in accordance with the provisions of Part II of this Act, it shall be found that it is unnecessary for the public interests to retain any embankment mentioned in the said Schedule (D), or any embankment or water-course which may have been included in the said Schedule (D) under the clause next following of this section, the Lieutenant-Governor may direct that the same shall be no longer included in the said schedule: Provided that the Lieutenant-Governor may restore the same to the said schedule if on any subsequent enquiry similarly conducted it shall appear to the Lieutenant-Governor that it is necessary so to do.

The Lieutenant-Governor may, at any time after the passing of this Act, by a notification published in the *Calcutta Gazette*, direct that any embankment not mentioned in the said Schedule (D), or any water-course, be included therein, and the provisions of this section shall apply to such embankment or water-course.

44. In accordance with the custom heretofore in force in respect of the pergunnahs entered in Schedule (E) annexed to Bengal Act VI of 1873, the Government shall continue to contribute annually the sum noted therein for each pergunnah respectively towards the maintenance of the embankments thereof.

Contribution of public money towards the maintenance of the embankments in the pergunnahs entered in Schedule (E) to be continued.

45. If the embankments maintained in either the said pergunnahs shall at any time be declared to be public embankments under the provisions of section 7, the Collector shall, from the date of such declaration, keep a separate account for such pergunnahs, in which the aforesaid sum shall be credited at the commencement of each financial year. The unexpended balance at the close of each year shall be carried on to the credit of the account in the next succeeding year, and shall be available for the cost of repairing or erecting all the embankments which it may be deemed necessary to maintain in such pergunnah.

If such embankments are declared to be public, Collector to keep a separate account.

46. If at any time after the commencement of this Act, on an enquiry made by the Collector as far as possible in accordance with the provisions of Part II, it shall be found that it is unnecessary for the public interests to retain any embankment in either of the said pergunnahs, the Lieutenant-Governor may direct that such contribution shall cease in respect of such pergunnah: Provided that such contribution shall again be made in accordance with the provisions hereinbefore contained, if it shall appear to the Lieutenant-Governor, on the report of an enquiry similarly conducted, that the maintenance of any embankment in such pergunnah has again become necessary for the public interest.

Contribution may be discontinued if it be found unnecessary for the public interest to maintain the embankments.

47. Subject to the provisions of Part III of this Act, before the Collector or the Engineer undertakes, under the provisions of this Act, the execution of any repairs or of any work other than any new work of which the estimates, specifications, and plans have been prepared and deposited in the Collector's office for public inspection as provided in section 7, specifications and estimates of the expenses to be incurred in respect of the repairs or works, including such proportion of establishment charges as the Lieutenant-Governor shall direct, shall be prepared by the Engineer.

Estimates and specifications to be prepared.

48. Whenever it appears that the actual expenses to be incurred in respect of any work will exceed by one-tenth any estimate of such work which may have been transmitted to the office of the Collector under the next succeeding section, the Engineer shall forthwith prepare further estimates, and, if necessary, further specifications.

Preparation of further estimates and specifications.

49. Copies of all specifications and estimates prepared under the two last preceding sections shall be transmitted to the office of the Collector, together with vernacular translations thereof, or such abstracts thereof as the

Estimates and specifications to be open to inspection.

Lieutenant-Governor may from time to time direct, and may be examined by any person interested in such works or repairs.

50. A general notice of the receipt of any such specifications and estimates shall be published in the manner prescribed in

Notice of receipt of estimates and specifications.

section 50, and in such general notice shall be specified all estates chargeable for, or likely to be affected by, the said works or repairs. Special notices shall also be served in respect of every estate in which the area liable to the assessment of the apportioned charge is likely to exceed one hundred acres; or instead of causing a general notice to be published, the Collector may cause special notices to the same effect to be served in respect of every estate chargeable for, or likely to be affected by, the said works or repairs. Should any objection in regard to such specifications and estimates be preferred by any such person within a period of one month from the date of service of such notice, the Collector shall pass such orders as may appear to him reasonable and proper.

51. The accounts of the actual expense incurred in executing any works or repairs, or of any portion of the actual expenses with which the Collector may determine to deal separately under this and the following sections, shall be prepared as soon as possible after the completion thereof. The Engineer shall sign a certificate stating the amount of all such expenses, and specifying the boundaries of the lands which are benefited or affected by the said works or repairs, and stating generally how and to what extent the lands so specified, or any parts of them, are affected. Any such certificate may be amended at any time before the Collector has made an order charging or apportioning the amount under section 58. On receipt of such certificate or amended certificate, the Collector shall cause a statement to be prepared of the villages of which any lands are benefited or protected by such works and repairs, and of the estates to which they belong, and, except as otherwise in this Act provided, the zemindars of such estates and villages shall be liable to pay the said amount. Copies of the said accounts, certificates, and statements shall be deposited in the office of the Collector, and may there be examined by any person interested.

Preparation of accounts and Engineer's certificate of expenses.

52. General notice of the receipt and deposit of such accounts, certificates, and statements in the office of the Collector shall be given. Special notices thereof shall also be served in respect of every estate in which the area liable to assessment of the apportioned charges exceeds one hundred acres; or instead of causing a general notice to be published, the Collector may cause special notices to the same effect to be served in respect of every estate and tenure on or among the zemindars or tenure-holders of which any sum is charged or apportioned; and if, within one month of such general notice being given, or of such special notice (if any) being served on him, any interested person shall object to the accounts on the ground either that the work charged for has not been performed, or that the whole sum charged has not been expended, or that the rates of charge are higher than those mentioned in the estimates,

Notices and enquiry into objections.

the Collector shall enquire into such objection, and pass orders thereon.

53. The Collector shall add to the amount appearing in the said certificate all sums which have been paid or have become payable in respect of the said works and repairs, whether as compensation, costs, and expenses under, and incidental to, any proceedings taken or directed to be taken under Part II or Part V of this Act, or under sections 26 to 29 of Bengal Act VI of 1873, as cost of making of surveys and plans, as cost of preparing the estimates, accounts, certificates, and statements, as cost of the issuing and service of notices up to date, or on any other account, and shall then make an order specifying the total sum found payable, and in respect of works done under section 17 and section 31 the persons by whom, or in respect of other works, the estates in respect of which, the same is payable to him. If the order is made in respect of work done under section 17 or section 31, the same shall forthwith be served upon the party or parties liable to pay; otherwise the Collector shall proceed under the provisions in the next Chapter contained.

Interest may be charged upon any sum paid as compensation from the date of payment thereof at five per centum, or at such rate, not exceeding five per centum per annum, as the Lieutenant-Governor may from time to time determine.

2. Liability for the costs and apportionment thereof.

54. The total sum aforesaid, save so far as is otherwise provided in this Act, shall be paid to the Collector by the zemindars of the estates in which are situated the lands benefited or protected by the repairs or works executed:

Provided that the sum standing to the credit of a pergunnah in Schedule (E) to Bengal Act VI of 1873 annexed in the account kept by the Collector, at the time when the total amount payable is fixed under the provisions of section 53, shall be deducted from the total amount payable in respect of such portion of any embankment as is situated in such pergunnah, and that the zemindars of the estates situated in such pergunnah shall be charged only with the balance of the amount (if any) which may remain payable.

55. Every zemindar, who is liable under the last preceding section for the payment of the whole or a portion of such total sum, shall be entitled to recover from the holder of every tenure held immediately under him, and from the holder of any land which is declared under the provisions of section 60 to form part of his estate, the sum apportioned to such tenure or land by the Collector under the provisions of section 59. And similarly, every tenure-holder shall be entitled to recover from the holder of any tenure subordinate to his own, and from the holder of any land declared under section 60 to form part of his tenure, the sum apportioned to such subordinate tenure or land by the Collector, under the said provisions.

56. So soon as the total sum payable as aforesaid has been ascertained, the Collector shall cause general notice to be given specifying the estates in respect of which any portion of such total sum will be chargeable and special notices to be served in respect of every estate in which the area chargeable exceeds one hundred acres; or instead of causing a general notice to be published, the Collector may cause special notices to the same effect to be served in respect of every estate and tenure on or among the zemindars or tenure-holders of which any sum is charged or apportioned. Such notices shall make it known that an enquiry will be held at a day and place therein named for the purpose of apportioning amongst the zemindars and tenure-holders the said total sum, with interest and the costs of apportionment.

57. In any such enquiry the Collector shall take down in writing the names of all persons who may claim, or who may be alleged by any party interested, to be holders of tenures within any of the estates mentioned in such notice. In default of appearance of any such person, the Collector shall issue and serve a notice calling on him to appear at a date and place therein mentioned, and to show cause against being included in the order of apportionment to be made therein, and shall adjourn the enquiry till such date.

58. At such or any subsequently adjourned enquiry, the Collector, if there be only one estate liable, shall charge the zemindar thereof with the total amount payable; and if there be two or more estates, he shall apportion the same amongst the zemindars thereof, either—

- (a) rateably in proportion to the respective benefits derived by such estates from such works or repairs; or
- (b) in proportion to the areas of the lands benefited or protected thereby, and comprised within such estates respectively; or
- (c) with the sanction of the local Government, in proportion to the amount of revenue payable for such estates respectively:

Provided that the said total amount payable in respect of the embankments on the right bank of the river Gunduk shall be chargeable, in accordance with the custom in force for such estates, to the zemindars of all the estates situated in the district of Sarun, in proportion to the amount of revenue respectively payable for such estates:

Provided also that the total amounts which may have been expended by the Government before the commencement of this Act, and the total amounts which may become payable in accordance with the provisions of this Act, on account of any year in respect of the embankments on the left bank of the river Gunduk in the district of Mozufferpore, shall be chargeable, and shall be deemed always to have been chargeable, in accordance with the custom hitherto in force in respect of such embankments; that is to say, chargeable to the zemindars of all the estates situated in the following pergunnahs, viz. Rati, Gadasand,

Hajipur, Bhatsala, Garjaul, Nae, Saresa, and Balagach, in proportion to the amounts of land revenue payable for such estates respectively, but so that the amount out of any total sum apportioned in respect of each estate in Rati, Gadasand, and Hajipur, shall bear such a proportion to the land revenue payable for such estate as shall be twice as great as the proportion which the amount apportioned in respect of each estate in the remaining pergunnahs shall bear to the land revenue payable for such estate.

59. The Collector shall, in like manner, except in respect of the said embankments on the right bank and left bank of the river Gunduk, charge or apportion the amount payable in respect of each estate upon or amongst the holders of the tenures therein rateably in the proportion of benefit so received or of area so benefited or protected, first deducting therefrom such sum as, on the like principle of proportion, is payable in respect of such portion of the estate as is not included within any tenure.

60. All lands held without payment of rent not being estates may, for the purposes of this Act, be deemed to form part of any estate or of any tenure within the local boundaries of which they are included; and if they are not included within the local boundaries of any estate, then to be a part of such coterminous estate as the Collector in whose district such coterminous estate is situated shall, by an order under his seal and signature, declare.

61. The amount charged to or apportioned on any estate or tenure shall be payable in equal instalments on such days as the Lieutenant-Governor shall direct, provided that no instalment shall exceed four annas for every acre of land in respect of which the same is payable, and that not more than four instalments shall be payable in any one year.

Interest shall be charged on the unpaid portion of the said amount from the date of apportionment until payment thereof at five per centum or at such rate, not exceeding five per centum per annum, as the Lieutenant-Governor may from time to time determine.

62. If after the apportionment of the expenses of any works and repairs as above prescribed any expenses not included in such apportionment shall be found to have been paid or to have become payable on account of the said works or repairs, whether as compensation or otherwise, the Collector may proceed to apportion such further expenses in the manner in this Part provided.

63. Instead of the procedure prescribed above for charging upon and recovering from zemindars the expenses actually incurred in the repairs and maintenance of public embankments and water-courses and the works connected therewith, the Lieutenant-Governor may, by an order to be published in the *Calcutta Gazette*, direct that an estimate be made of the expenses to be incurred in respect of such repairs, maintenance, and works

during any number of years, not exceeding thirty, which he may think fit; and may by a subsequent order fix the total sum payable during such number of years by the zemindars of the estates benefited by such repairs, maintenance, and works;

Provided that no order fixing such total sum shall be passed by the Lieutenant-Governor until three months after the amount of such estimate shall have been published in the *Calcutta Gazette* and by a general notice calling on all persons interested to prefer to the Collector any objections they may think proper against such amount being fixed as the total sum. Every such objection shall be submitted to the Lieutenant-Governor for his consideration.

64. The period fixed in any order under the section last preceding may include also years previous to the commencement of this Act, provided that in such case the total sum mentioned in the said section shall be calculated by adding the amounts actually expended before the making of such order, to the estimate of expenses to be incurred during the rest of the period included in such order.

65. The total sum mentioned in section 63 or in section 64 may be made recoverable in respect of the expenses of repairs and maintenance, and the expenses of works connected with the repairs and maintenance—

- (a) of any protective works which may be specified in such orders;
- (b) of all the public embankments and water-courses in any district; or
- (c) of all the public embankments and water-courses within any tract of country specified in the order of the Lieutenant-Governor; and any such tract may contain the whole or portions of any one or more districts;

and no further sum shall be recoverable during such period in respect of the expenses of such repairs, maintenance, and works connected therewith, save so far as any such works or repairs are executed under the provisions of section 18 or of section 31.

But such total sum shall not include the expenses of executing any new works which may be undertaken under the provisions of this Act within any district or tract as aforesaid.

Whenever the Lieutenant-Governor shall declare that any work executed or to be executed within such district or tract is a new work within the meaning of this section, the cost of executing such work and of maintaining the same shall be payable by the zemindars to the Collector under the provisions of this Act, in addition to any total sum fixed under section 63 or section 64 as payable by them.

66. On publication of any order of the Lieutenant-Governor under section 63, the Collector shall proceed to charge or apportion the said total sum upon or among the zemindars and (except in respect of the embankments on the right and left banks of the river Gunduk as provided in section 58) among the tenure-holders who are liable to pay the same, as above provided.

67. The sum so apportioned in respect of any estate or tenure on account of any such period as is mentioned in section 63 shall be payable in equal portions in each of the years included in such period, and each such portion if unpaid shall carry interest at five per centum, or at such rate, not exceeding five per centum per annum, as the Lieutenant-Governor may from time to time determine, from the end of the year in which it is payable.

68. On the completion of any charge or apportionment under this Act, the Collector shall make an order specifying the estates and tenures in respect of which any sum charged or apportioned is payable, and the sums payable in respect of each of the instalments of such sums, and the dates on which such sums are payable.

3.—Recovery thereof.

69. As soon as may be after any final order of apportionment is made as provided in the section last preceding, the Collector shall cause copy of such order to be published with a general notice, stating that the amounts apportioned on the zemindars in respect of estates are payable to the Collector, and the amounts apportioned on the tenure-holders in respect of tenures are payable to the zemindars or superior tenure-holders. Instead of causing a general notice to be published, the Collector may cause special notices to the same effect to be served in respect of every estate and tenure on or among the zemindars or tenure-holders of which any sum is charged or apportioned.

70. If any such sum payable to the Collector, or any instalment thereof, be not, pursuant to the said order, paid, the same with interest may be recovered as arrears of a demand under the provisions of the Public Demands Recovery Act, 1880, or any similar Act for the time being in force.

71. When a recorded sharer of a joint revenue paying estate has opened a separate account under Act XI of 1859, or under section 70 of Bengal Act VII of 1876, or any similar law for the time being in force for the regulation of the opening and maintaining of such separate accounts, he shall be entitled, in regard to the payment and realization of all sums due under this Act, to all the advantages of separate liability enjoyed by him under the said Act XI of 1859, and Bengal Act VII of 1876 respectively, in regard to the payment and realization of revenue, and shall be entitled to separate assessment and to the issue of a separate notice in every case in which special notice is by this Act required to be served, from the date on which such advantages shall take effect in respect of the demand of Government revenue.

Similar privileges shall attach to every recorded holder of a revenue-free estate who has opened a separate account under section 46 of Bengal Act IX of 1880 in respect of the amount of cesses payable by him.

72. Notwithstanding anything contained in section 70, any such sum shall be a first charge on the estate in respect of which it is apportioned, and shall be deemed to be a demand debited to the estate in the public accounts of the district within the meaning of section 31 of Act XI of 1859, and such charge shall not be avoided by any sale, nor shall the joint liability of the entire estate for such sum be affected by any partition of the said estate which may subsequently take place.

73. If the Collector thinks it inexpedient to proceed for the recovery of such sum or any part thereof under the provisions of section 70, or having so proceeded shall have failed to realize the sum due, he may, with the sanction of the Board of Revenue, raise the amount necessary to discharge the sum or instalment remaining unpaid—

- (a) by mortgaging the whole or any part of such estate;
- (b) by letting in farm or managing by himself or another the whole or any part of such estate;
- (c) partly by one of such modes and partly by another or others of them.

For the purposes of this section the Collector may exercise all the powers of the owner of such estate, and his signature shall be a good and sufficient signature to any document necessary to carry into effect the said purposes.

74. PART IV.

Bill of the Bengal Council.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

THE following further report of the Select Committee, together with the Bill as recommended by them, is, by order of the President, published for general information :—

WE, the undersigned members of the Select Committee, to whom the Bill to amend the Bengal Excise Act, 1878, was referred back for the purpose of considering further amendments therein, have the honour to make the following report :—

We have inserted a definition of "licensed vendor or manufacturer" in order to make it clear that the words refer only to persons licensed under the Bengal Excise Act, and not to vendors or manufacturers who have obtained licenses from other Governments in other provinces.

We have inserted a definition of "tari," and in this we have followed the wording of the Northern India Excise Act, 1881.

We have added a section to the effect that no person is to have in his possession a still for which he has not obtained a license.

We have amended section 15 of the Act so as to specify certain minimum quantities of excisable articles, the sale of which quantities shall constitute a retail sale, and we have given the Board power to fix larger quantities at their discretion. We have thought it necessary to fix these specified quantities in accordance with what we find to be the existing limits under the present law, and as there are several districts in which the retail sale of country spirit is limited to one seer, we have specified this quantity in the section, leaving it to the Board to enlarge the limit in those districts in which a restriction to one seer may not be necessary. For a similar reason we have fixed the limit for tari and puchwai at four seers. For liquors imported by sea, we have not interfered with the present limit of two gallons or twelve quart bottles.

We have inserted a new section to give the Government power to lay down rules for the importation and bonding of excisable articles manufactured in British India beyond the limits of the territory to which the Act extends. The only article at present so imported is rum manufactured in the North-West Provinces; but we have made the wording of the section sufficiently wide to include any other excisable articles which may be similarly imported hereafter. Section 26 of the Act provides that every person taking out a license is to execute a counterpart engagement in conformity with the tenor of the license; but as in practice these counterpart engagements are seldom required, we have amended the section by making it optional with the Collector to dispense with them.

In sections 29 and 30 we have provided that notice of the recall or of the surrender of a license must be given in writing.

The second clause of section 53 of the Bengal Excise Act wrongly refers to that section, instead of to section 60, to which it really belongs. We have therefore transferred the clause to section 60 with the necessary verbal alterations.

We have amended the wording of section 61, so as to make it clear that the penalty attached to unauthorized possession does not extend to such possession by any person merely as a carrier or warehouseman.

We recommend that the Bill as now amended be passed.

H. REYNOLDS.

T. T. ALLEN.

I AGREE in this report except so far as it defines "tari," which, although it may include the date juice as also the palm juice, should exclude both in an unfermented state.

There are one or two other matters on which I have some doubt, and altogether I sign this report with reservation.

13th December 1882.

MAHOMED YUSOOF.

I GENERALLY concur, but I differ on two points. I do not think it right to treat fresh date juice as an excisable article. The object of the Excise Act is to tax intoxicating articles in order to discourage the use of such articles, but fresh date juice is not intoxicating; it is a cooling and innocent drink; it is the poor man's luxury; it would be as reasonable to tax it for excise purposes as it would be to tax tea or coffee.

The other point is this. While I agree that the Legislature should fix the minimum quantity of retail sale of liquor, I see no reason why an invidious distinction should be made between imported and country liquors. It is not proposed to interfere with the retail sale of imported liquors which stands at the old quantity of 12 quart bottles; but the quantity of country liquors for retail sale is reduced from 12 quart bottles to one quart bottle. The effect of this distinction will be that a premium will be held out to imported liquors. It is notorious that the stuff which is sold at Radhabazar as imported liquor is more deleterious than the country liquor, and an encouragement held out to the sale of the former would be positively hurtful to the people. Besides, the proposed distinction will foster protectionism in favour of the European manufacturer, which cannot be consistent with the free trade policy of the Government of India. I am as willing as any other person to put down the use of intoxicating liquors, but I consider it my duty to protest against a course of legislation, which would hold out a premium to the use of the obnoxious stuff sold at Radhabazar under the name of imported liquor and will result in the vicious encouragement of a vicious protectionism.

STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill is to make one or two amendments of the Indian Railway Act, 1879, which the experience of the last three years has shewn to be desirable.

Section 5 of the Act, as it stands at present, does not shew as clearly as it should that the sanction of the Governor-General in Council is necessary before any railway or portion or extension of, or addition to, a railway is opened for the public conveyance of passengers. To remedy this defect, the section has been recast by the Bill, which makes it clear that the Government Inspector has of himself authority only to inspect and report on the line for the orders of the Governor-General in Council. In order, however, to prevent inconvenience in special cases, an addition has been made to the section enabling the Governor-General in Council to delegate to the inspecting officer in special cases the powers of sanctioning the opening of a railway conferred on the Governor-General in Council by the section.

The Act does not now empower the Governor-General in Council to inspect a line after it has once been opened for the public conveyance of passengers. At present, the absence of such a power is not of much importance, as the Government has full right under its contracts with the various Railway Companies to make what inspections it likes; but, if private enterprise hereafter starts railways independent of Government, it may be seriously inconvenient to be unable to inspect such lines and ascertain whether they are being maintained in a safe and efficient state. Certain provisions have, therefore, been inserted after section 5 of the Act which empower Government to cause a line to be inspected by an officer to be appointed for the purpose, define his powers for the purpose of such inspection, authorize the Government to close any line reported not to be in a safe state for the public conveyance of passengers, and provide for the re-opening of such line only after its opening has been declared to be possible without danger to the public. An addition has also been made to section 21 imposing a penalty on any Railway Administration which does not close a railway in compliance with an order by Government to that effect, or re-opens a railway which has been closed without the sanction of Government.

Lastly, the Act, as it stands at present, does not empower Railway Administrations to impose fines by their bye-laws on their servants who may be guilty of breach of duty. This power is essential for the enforcement and maintenance of discipline on railways, and the Bill (here following the English Companies Clauses Act, 1845, sections 124, 125) confers the requisite authority.
